

Technical Datasheet

4G Connection W Cads

Product Category:

Cards

SKU:

W4G/W4GV

Description

W cards enable all EHOX control panels to connect to the outside world or the NUSKU platform via 4G.

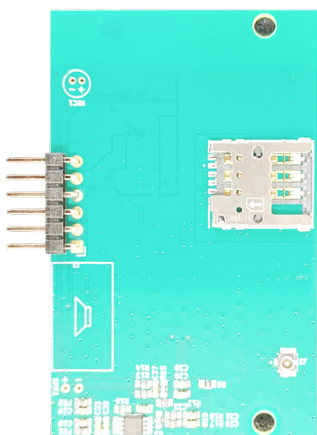

The W4G is a 4G communications card that uses the Contact ID protocol. It requires a data SIM card.

The W4GV is a 4G + voice communications card that uses the Contact ID protocol. It requires a voice and data SIM card.

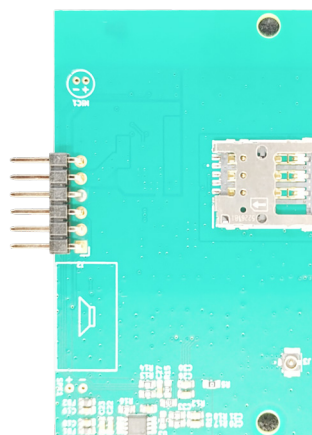

The W cards are housed in dedicated slots in the BLACK BOX of all EHOX panels, allowing these panels to be configured according to the installation's needs.

Through the W cards, remote management of the control panels can be performed via NUSKU services.

Variants

4G COMMUNICATIONS
W4G

4G COMMUNICATIONS + VOICE
W4GV

W4G Features

- ✓ SIM card slot for 4G connectivity
- ✓ Contact ID transmission
- ✓ Compatible with all EHOX control panels
- ✓ Full integration with EHOX systems

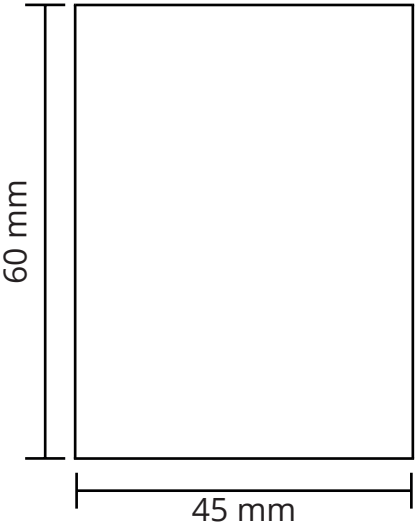

W4GV Features

- ✓ SIM card slot for 4G connectivity
- ✓ Contact ID transmission
- ✓ Compatible with all EHOX control panels
- ✓ Full integration with EHOX systems
- ✓ Built-in microphone and speaker for voice calls

Technical Specifications

Technical Specifications	
Dimensions	45mm (with connection pins) x 60mm
Structure	Motherboard with connection
Operating voltage	from 24 to 32 Vcc
Wiring	2 x 1.5mm ² stranded LSZH cable
Standby power consumption	<300 µA
Alarm power consumption	<11 mA
Climate classification	3K5, (IEC 721-2-3)
Operating temperature	-10°C to +70°C
Relative humidity	5% to 95% non-condensing
Ingress protection	IP20 (EN60529)
Certifications	EN54 - 21

Dimensions W4G

Dimensions W4GV
